Dna encoding a plant deoxyhypusine synthase, a plant eukaryotic
initiation factor 5a, transgenic plants and a method for
controlling senescence and programmed cell death in plants

Dna encoding a plant deoxyhypusine synthase, a plant eukaryotic
initiation factor 5a, transgenic plants and a method for
controlling senescence programmed and cell death in plants

method and reagent for the treatment of diseases or conditions
related to levels of vascular endothelial growth factor receptor
Patent: US 656127-A 6672 20-MAY-2003;
Unclassified.

(Lobase 1 to 17)
